Jakarta

I am a fresh graduate in Computer Science from Bina Nusantara University (Binus) with a strong enthusiasm for web development, especially in using React. With extensive organizational experience, I am skilled in teamwork, time management, and effective problem-solving.

My expertise in React has enabled me to develop responsive and dynamic web applications, with a solid understanding of front-end development principles. I am always eager to deepen my technical skills and apply them to impactful real-world projects.

I am open to connecting with professionals and peers in the tech industry to learn, share experiences, and explore collaboration opportunities that can bring value to all involved.

Work Experiences

PT Mostrans Global Digilog - **Jakarta Timur, Jakarta**   Aug 2024 - Present

Application Developer Intern

MOSTRANS is the first digital transportation platform in Indonesia that aims to bring connectivity into healthcare Shipper and trusted Transporter ecosystem.
